

758 Hospitals Penalized For Patient Safety In 2016

Medicare is lowering its 2016 payments by 1 percent for 758 hospitals with high rates of potentially avoidable infections and complications such as blood clots, bed sores and falls. This is the second year of the Hospital-Acquired Conditions Reduction Program, which was mandated by the federal health law to reduce patient injuries. Below are the hospitals being penalized.

Source: Kaiser Health News analysis of data from the U.S. Centers for Medicare & Medicaid Services
