AMERICAN EXPERIENCE

SPACE MEN

(Left) Joseph Kittinger sits in the gondola before rising to the stratosphere. (Right) Here, the automatic camera records the instant Capt. Kittinger bailed out of the balloon gondola.

On a perfectly still August morning in 1960, Air Force Captain Joseph Kittinger lifted off in a helium balloon from an abandoned airstrip in New Mexico, floating upwards into the clouds. When his open gondola reached 100,000 feet, nearly 20 miles above the earth, Kittinger disconnected his onboard oxygen supply, said a prayer, and stepped off into the unknown. If his parachute opened too soon, Kittinger would suffer a slow journey through the poisonous stratosphere. If it opened too late, his body would not withstand the force of spin during an extended free fall.

Within seconds, Kittinger was hurtling at over 400 miles per hour through temperatures nearing 100 degrees below zero. By the time he touched down on the warm New Mexico sand, he had survived the longest free fall and the longest parachute jump in history—nearly 20 miles in 13 minutes and 45 seconds.

Kittinger's daring feat was part of a research program that began testing the limits of human endurance at the very edge of space

nearly a decade before President John F. Kennedy committed the nation to sending a man to the moon.

"Space Men" on **American Experience** tells the little-known story of Kittinger and a largely forgotten group of other daring explorers whose scientific experiments in the stratosphere laid critical groundwork for NASA's manned space program.

"Space Men" on **American Experience** airs Tuesday, the 1st at 8:00 p.m. and Sunday, the 6th at 10:00 p.m. On HD3-1, it can be seen Wednesday, the 2nd at 7:00 p.m. and Thursday, the 3rd at 7:00 a.m. and 2:00 p.m.

Georgia O'Keeffe

Circa 1915

A Woman on Paper

Artist Georgia O'Keeffe has been called the "Mother of American Modernism," well-known for her flowing, colorful works depicting flowers and plants, dramatic cityscapes, and Southwestern landscapes. The half-hour documentary **Georgia O'Keeffe: A Woman on Paper** highlights the artist's career while focusing on the little-known story of O'Keeffe's time spent in Columbia, S.C. as an art instructor at Columbia College. The program follows O'Keeffe's career through various artistic stages, ending permanently in New Mexico, where she created more realistic paintings with vivid color.

While teaching at the college in the fall of 1915 and the spring of 1916, O'Keeffe found her voice with a series of innovative black and white abstract charcoal drawings that represented a radical break with tradition and led her art—and her career—in a new direction. "Finally, a woman on paper!" exclaimed Alfred Stieglitz in 1916, after he looked at O'Keeffe's charcoal drawings.

Collectively titled "Specials," the charcoal drawings made O'Keeffe one of the very first American artists to practice pure abstraction, and they would go on to define and establish her career as one of the country's leading artists.

Georgia O'Keeffe: A Woman on Paper airs Sunday, the 6th at 10:00 a.m., Friday, the 25th at 9:00 p.m., and Tuesday, the 29th at 8:00 p.m. On HD3-1, it airs Sunday, the 6th at 6:00 p.m. and Wednesday, the 9th at 8:00 a.m. and 3:00 p.m.

American MASTERS

Loretta Lynn: *Still a Mountain Girl*

Inducted into more music Halls of Fame than any female recording artist to date, Loretta Lynn (b. April 14, 1932) has earned four Grammy Awards, Kennedy Center Honors, a Presidential Medal of Freedom, and sold more than 45 million records worldwide. Still going strong after more than 50 years, "The Queen of Country Music" is now the subject of the **American Masters** "Loretta Lynn: Still a Mountain Girl." The world premiere broadcast is the same day as the release of Lynn's first new studio album in over 10 years, *Full Circle*.

"Still a Mountain Girl" features never-before-seen home movies, performances, and photos, as well as interviews with her friends and fellow musicians, including Sheryl Crow, Willie Nelson, Garth Brooks, Trisha Yearwood, Reba McEntire, Sissy Spacek, Miranda Lambert, and Bill Anderson.

Filming also took place at her ranch and other locations in Hurricane Mills, Tennessee, the community she formed as a re-creation of her Appalachia birthplace, Butcher Hollow, Kentucky, where she was raised in poverty.

The film explores Lynn's hard-fought road to stardom, her struggles to balance her marriage to Oliver "Doolittle" Lynn and six children with her music career, her life on the road, her Nashville and Hurricane Mills communities, her songwriting inspirations, and her music's lasting impact on her peers and fans.

American Masters "Loretta Lynn: Still a Mountain Girl" airs Friday, the 4th at 9:00 p.m. and Monday, the 21st at 9:00 p.m. On HD3-1, it airs Wednesday, the 16th at 7:00 a.m./2:00 p.m.

Joan of Arc: God's Warrior

Joan of Arc: God's Warrior explores the life and tragic death of Joan of Arc. In 1429, a teenage peasant girl hears the voice of God and his angels.

They tell her to cross 250 miles of enemy territory to the Dauphin's court (the heir apparent to the French throne) in Chinon, persuade him

to give her an army, use the army to drive the English out of France forever, and have the Dauphin crowned king.

After seeing the Dauphin crowned King Charles VIII, Joan was captured by Anglo-Burgundian forces, tried for witchcraft and heresy, and burned at the stake in 1431 at the age of 19. Through an astonishing court manuscript, Joan's own words at her trial are heard.

Joan of Arc: God's Warrior airs Tuesday, 22nd at 7:00 p.m. and Friday, the 25th at 9:30 p.m. On HD3-1, it airs Tuesday, the 22nd at 7:00 p.m. and Wednesday, the 23rd at 8:00 a.m. and 1:00 p.m.

Mr. Selfridge, The Final Season

The clock nears closing time as mercantile genius Harry Selfridge (Jeremy Pevin) faces creditors, swindlers, mob bosses, irate relatives and mistresses in the farewell season of "Mr. Selfridge," airing on **Masterpiece** in nine nail-biting final episodes.

This "The Final Season" follows the unpredictable arc of Harry's career to its thrilling climax, charting the fate of the showman with the big heart, shaky morals, and dogged belief that the dice roll will save him—and the store—every time.

"Mr. Selfridge" on **Masterpiece** airs Sundays at 8:00 p.m. beginning 27th and Fridays at 10:00 p.m. On HD3-1, it airs Sundays at 10:00 p.m. beginning the 27th and Mondays at 7:00 a.m. and 2:00 p.m.

Secrets of Selfridges, a one-hour special, reveals the grandiose store's hidden stories and delves deep into the mind of its ambitious creator.

Secrets of Selfridges airs Sunday, the 27th at 7:00 p.m.. On HD3-1, it airs Sunday, the 27th at 7:00 p.m. and Monday, the 28th at 6:00 a.m. and 1:00 p.m.

They wore low cut gowns and short shorts, they kowtowed to the club owners and smiled at the customers, and they did it all just to play the music they loved. **The Girls in the Band** tells the poignant, untold stories of female jazz and big band instrumentalists, chronicling their fascinating, groundbreaking journeys from the late '30s to the present day.

Narrated by pianist Marian McPartland and other sassy players who worked primarily in the 1930s and '40s, **The Girls in the Band** is the story of these incredibly talented women who endured sexism, racism, and diminished opportunities for decades, yet continued to persevere and elevate their talents in a field that seldom welcomed them.

The Girls in the Band can be seen Tuesday, the 22nd at 8:00 p.m. and Friday, the 25th at 10:30 p.m. On HD3-1, it airs Tuesday, the 1st at 7:00 p.m. and Wednesday, the 2nd at 8:00 a.m. and 1:00 p.m.

The Alcatraz Escape

On June 11th, 1962, bank robbers Frank Morris and Clarence & John Anglin launched a patchwork, raincoat raft into the frigid waters of San Francisco Bay surrounding Alcatraz Prison. The men disappeared, leaving behind a cold case that has mystified law enforcement for over 50 years now. An exhaustive search failed to find the three—dead or alive. Now, for the first time, a team of Dutch scientists has employed innovative 3-D technology to prove it's possible that the three inmates survived their daring escape.

"The Alcatraz Escape" on **Secrets of the Dead** pushes this new investigation from computer models and tidal charts onto the lethal waters of San Francisco Bay itself. Using the most current scientific advancements, yet keeping the raft and recreation as realistic to the 1962 escape as possible, the Dutch scientists try to sort fact from fiction.

"The Alcatraz Escape" on **Secrets of the Dead** airs Tuesday, the 29th at 7:00 p.m. On HD3-1, it airs Tuesday, the 29th at 8:00 p.m. and Wednesday, the 30th at 7:00 a.m. and 12:00 p.m.

The Singularity, Will We Survive Our Technology?

The Singularity is defined as the point in time when computer intelligence exceeds human intelligence. Most scientific leaders argue that this point is inevitable within the coming decades.

We are on the cusp of creating nanotech machines that patrol our bloodstream and repair cellular damage, athletes with jacked-up genetic code who sprint like gazelles, an Internet that downloads directly to the mind, and medical labs with computer-replicated brains working by the thousands to cure disease.

The Singularity, Will We Survive Our Technology? explores the impact of rapid-fire technological advances on humanity. The film brings together leading futurists, computer scientists, artificial intelligence experts, and philosophers who turn over this topic like a Rubik's Cube.

The Singularity, Will We Survive Our Technology? airs Tuesday, the 15th at 10:00 p.m. and Wednesday, the 23rd at 9:00 p.m. On HD3-1, it airs Wednesday, the 30th at 8:00 p.m. and Thursday, the 31st at 7:00 a.m. and 2:00 p.m.

An Honest Liar

For the last half-century, James "The Amazing" Randi has entertained millions of people around the world with his remarkable feats of magic, escape, and trickery. But when he saw faith healers, fortune-tellers, and psychics using his beloved magician's tricks to steal money from innocent people and destroy lives, he dedicated his life to exposing frauds, using the wit and style of the great showman that he is.

Part detective story, part biography, and a bit of a magic act itself, the award-winning "An Honest Liar" premieres on **Independent Lens**. His work exposing faith healers won Randi a prestigious MacArthur "Genius" Grant in 1987.

A film about the many faces of deception that's full of unexpected twists and turns, "An Honest Liar" is told through interviews with Randi, Penn & Teller, Bill Nye, Israeli illusionist Uri Geller (who Randi spent years debunking), Alice Cooper, and others.

"An Honest Liar" on **Independent Lens** airs Monday, the 28th at 9:00 p.m. On HD3-1, it airs Monday, the 28th at 7:00 p.m. and Tuesday, the 29th at 7:00 a.m./2:00 p.m.

The Patient's Playbook

When you or someone you love faces a health problem and critical decisions about treatment must be made, it's easy to become paralyzed. We don't know how to collect the right information, gain access to the most capable physicians, and ensure the best possible outcome.

Leslie Michelson, a medical case management expert, has distilled three decades of experience into **The Patient's Playbook**.

The Patient's Playbook takes viewers step-by-step through the process of getting the best possible medical care, including how to avoid the most common mistakes people make in the first 24 hours of a medical emergency; avoiding over-treatment (which can be even more dangerous than under-treatment), making sure you've been correctly diagnosed, and much much more.

The Patient's Playbook airs Wednesday, the 9th at 8:30 p.m. and Sunday, the 13th at 5:00 p.m. On HD3-1, it airs Saturday, the 12th at 7:00 p.m. and Sunday, the 13th at 2:00 p.m.

Finding Your Roots "Maps of Stars"

With host Harvard scholar Henry Louis Gates, Jr., the third season of **Finding Your Roots** has explored America's family tree to reveal how our diverse racial, religious, and ethnic backgrounds challenge many of our long-held national myths.

"Maps of Stars," the season finale, brings together Dustin Hoffman and Mia Farrow to explore how their ancestral histories, steeped in tragedy, shaped their lives.

Hoffman gains a new appreciation for his own parents when he realizes his father's father and grandfather were both tragically killed by Ukrainian secret police. Born to Hollywood royalty, Mia Farrow, the mother of 15 children, investigates the upbringing of her father, who lost his mother as a young child.

Finding Your Roots "Maps of Stars" can be seen Tuesday, the 8th at 7:00 p.m. On HD3-1, it airs Tuesday, the 8th at 8:30 p.m.

With his passing, that project has now become a retrospective memorial.

Smart Fats to Outsmart Aging

According to physician and nutritionist Dr. Steven Masley in **Smart Fats to Outsmart Aging**, the SAD (Standard American Diet) is stealing health and aging people faster than necessary. In this program, he discusses the 5 major aging accelerators mostly attributable to the SAD: inflammation, hormone imbalance, loss in muscle mass, and common nutritional deficiencies.

To stop these aging accelerators and, in some cases, to reverse them, Dr. Masley focuses on 4 main food groups. He maps out what to eat, how much, and even how to cook for maximum anti-aging benefit—to look and feel better for the rest of your life.

Smart Fats to Outsmart Aging will be broadcast Sunday, the 6th at 12:30 p.m. and Wednesday, the 16th at 7:00 p.m. On HD3-1, it can be seen Monday, the 7th at 8:30 p.m. and Saturday, the 12th at 12:30 p.m.

Coffee: The Drink that Changed America

In **Coffee: The Drink that Changed America**, coffee roaster Dean Cycon and food lover Judith Jones trace coffee's amazing story, from its origins to the 21st century coffee palaces in America, and the artisanal coffee movement that is now sweeping the world.

Originally a drink in Ethiopia, it wasn't until the 17th century that coffee began its journey out of the Middle East, into European coffee houses. It was the French who brought the plant to the Americas, cultivating it in the Caribbean, but it was an English tax on tea that turned America to coffee in the lead up to the American Revolution.

Coffee: The Drink that Changed America airs Sunday, the 6th at 11:00 a.m. and Monday, the 14th at 8:30 p.m. On HD3-1, it airs Saturday, the 5th at 10:00 a.m. and Sunday, the 13th at 12:00 noon.

**RED HOT
CHILLI
PIPERS**

In the past ten years, The Red Hot Chilli Pipers have become the most famous bagpipe band on the planet ever, known for their bagpipes with attitude, drums with a Scottish accent, a blazing rock band, and an infectious style of feel good music that appeals to all ages.

Their groundbreaking fusion of traditional Scottish music and Rock/Pop—which they call “Bagrock”—has sold out venues around the world, from the U.S.A. to India and from New Zealand to Dubai. There has never been anything quite like The Red Hot Chilli Pipers. Feel the Chilli heat; it’s time to come closer to the fire ... during FESTIVAL 2016.
