Ric Burns' "The Pilgrims," a two-hour documentary on **American Experience**, explores the converging forces, circumstances, personalities, and events that propelled a group of English men and women exiled in Holland to journey across the Atlantic in 1620. Stripping away myth and bringing them to life, "The Pilgrims" reveals individuals far different from those imagined in our national memory. With distinct and often riveting personal histories, passionate religious beliefs, and the will to survive—even through violent means—this Pilgrims narrative reveals the real history of our nation's beginnings.

"From childhood on Americans are taught to think of the voyage of the *Mayflower* and the coming of the Pilgrims as the true founding moment of America," said Burns, "and we honor them as such every year on Thanksgiving—even though they came thirteen years after the founding of Jamestown in 1607. The real story of the Pilgrims—who they were, what drove them on, what happened to them in the new world, how they succeeded and how they failed, and why we remember them as we do—is far more gripping, poignant, harrowing, and strange—and far more revealing—than the Thanksgiving myth we think we know."

"The Pilgrims" features spectacular recreations of the *Mayflower's* harrowing voyage across the Atlantic using the

the spine of the Pilgrims' narrative, from the early formation of a separatist Protestant sect in England to a colony in the New World whose hard-fought success after a decade would trigger a massive influx of colonists throughout New England.

While Bradford's account, written over 20 years, is a source of much of the narrative for "The Pilgrims," his incomplete telling of their story is filled in by other Pilgrims' writings and by court testimony that include some of the more harrowing and morbid details of their journey and settlement.

"The Pilgrims" on **American Experience** will be broadcast Tuesday, the 24th at 7:00 p.m., Thursday, the 26th at 8:00 p.m., and Sunday, the 29th at 10:00 p.m. On HD3-1, it can be seen Tuesday, the 24th at 8:00 p.m. and Wednesday, the 25th at 7:00 a.m. and 2:00 p.m.

Mighty, elemental forces molded North America. Fiery eruptions, titanic floods, the grinding of great ice sheets, and massive impacts from space all shaped our land. Now, **Nova**, in an epic new three-hour series, presents "Making North America," a bold and sweeping three-billion-year biography of our continent and how it came to be.

This spectacular road trip through our nation's tumultuous deep past sets out to answer three fundamental questions: How was the continent built? How did life evolve here? And how has its spectacular landscape shaped human lives and destinies?

"Origins" reveals how forces of almost unimaginable power gave birth to North America. Viewers join host Kirk Johnson, renowned paleontologist, as he rappels down the sheer wall of the Grand Canyon to reach billion year-old rock layers, flies over active volcanoes in Hawaii to witness new land being formed, and discovers a fossil in Alaska proving that palm trees once flourished there.

"Life," the second hour, investigates the mystery of how life emerged on our primeval continent. Why was North America home to so many iconic dinosaurs like T-Rex? How did a huge inland sea filled with giant marine creatures end up covering Kansas? How did the continent's ancient subtropical forest become home to some of the earliest primates and why did they ultimately disappear, leaving North America mostly primate-free until the arrival of humans millions of years later?

"Human," the final hour, explores the connections between the landscape and the colonizing of the continent. From prehistoric stone

**NOVA**

toolmakers to the gold rush and today's oil and gas boom, North America's hidden riches have always held the key to our prosperity.

"Making North America" on **Nova** will be broadcast Wednesdays at 8:00 p.m. for three weeks beginning the 4th. The series repeats Saturdays at 10:00 p.m. beginning the 7th and Sundays late night at 12:00 midnight beginning the 8th. On HD3-1, the series airs Thursdays at 11:00 a.m. beginning the 5th, Saturdays at 11:00 p.m. beginning the 7th, and Sundays at 4:00 p.m. beginning the 8th. Episodes two and three also air Fridays at 8:00 p.m., on the 13th and 20th, respectively.

## Inside Einstein's Mind

On November 15th, 1915, Albert Einstein published his greatest work: "General Relativity." This theory transformed our understanding of nature's laws and the entire history of the cosmos, reaching back from the present moment to the origin of time itself. Now, in celebration of the 100th anniversary of Einstein's achievement, **Nova** presents "Inside Einstein's Mind," that tells the inside story of Einstein's masterpiece.

In the program, **Nova** retraces Einstein's thought experiments to reveal the simple but powerful ideas that reshaped our understanding of gravity, illuminating the theory of general relativity—and Einstein's brilliance—as never before.

"Inside Einstein's Mind" on **Nova** can be seen Wednesday, the 25th at 8:00 p.m. and repeats Saturday, the 28th at 10:00 p.m. and Sunday, the 29th late night at 12:00 midnight. On HD3-1, it airs Thursday, the 26th at 11:00 a.m., Saturday, the 28th at 11:00 p.m., and Sunday, the 29th at 4:00 p.m.

## AFTER YOU'VE GONE

**After You've Gone** is a seven-part British comedy that focuses on Jimmy Venables, probably the only man in Britain who gets divorced and ends up with his mother-in-law. That's not how he planned it, but since when does life go according to plan?

When Jimmy Venables' ex-wife volunteers to go to East Africa to help the victims of a natural disaster, weekend dad Jimmy agrees to take care of their two teenage kids full-time in an attempt to win her back. Unfortunately, his posh mother-in-law Diana sees Jimmy as the true natural disaster and virtually moves in herself to keep order and undermine everything Jimmy tries to do. But that's okay. Jimmy has never met a challenge yet that he hasn't confronted head on... and been crushed by.

**After You've Gone** airs Saturdays at 8:00 p.m. beginning the 7th (except 28th). On HD3-1, it airs Sundays at 8:00 p.m. beginning the 1st (except 22nd, 29th)

## DETECTORISTS

Set in a small fictional town of Danebury in northern Essen, **Detectorists**, a six-part series, revolves around the lives, loves, and detecting ambitions of Andy and Lance, members of the Danebury Metal Detecting Club. The series won an award at the 2015 British Academy Television Awards for Best Situation Comedy.

In **Detectorists**, wannabe archaeologist Andy (Mackenzie Crook) and his friend Lance (Toby Jones) spend much of their time traipsing through fields with a metal detector and dreaming of finding priceless relics that will bring them fame and fortune.

Following a chance encounter with a young history student, Lance and Andy embark on a journey towards the discovery of a lifetime—the "holy grail" of metal detecting. Unfortunately for them, real life keeps getting in the way.

**Detectorists** will be broadcast Saturdays at 8:30 p.m. beginning the 7th (except 28th)

## DEBT OF HONOR: Disabled Veterans in American History

In **Debt of Honor: Disabled Veterans in American History**, filmmaker Ric Burns illuminates the struggles and triumphs of disabled veterans in American history. Beginning in the aftermath of the Revolutionary War and continuing through today's conflicts in the Middle East, **Debt of Honor** examines the way in which the American government and society as a whole have regarded disabled veterans.

The film combines personal stories, told by distinguished disabled veterans, with deep history narrated by leading scholars in the fields of disability studies, history, and psychology to illustrate the human cost of war and the enormous sacrifices of military service. These sacrifices are brought to life through hundreds of carefully curated still images and archival footage.

**Debt of Honor: Disabled Veterans in America** can be seen Tuesday, the 10th at 8:00 p.m. On HD3-1, it airs Tuesday, the 10th at 9:00 p.m. and Wednesday, the 11th at 8:00 a.m. and 3:00 p.m.

## Jamestown's Dark Winter

In "Jamestown's Dark Winter" on **Secrets of the Dead**, a team of archaeologists excavating the site of an early American colony discovers something surprising: the remains of a young woman, dating back to 1609, buried in the trash layer of a cellar. She was one of the early settlers sent over from England to Jamestown with the intention of establishing a thriving settlement that would enact lucrative trade systems with the local Powhatan tribe. Unfortunately, the alliance was precarious and provisions were in short supply.

As winter fell, the colony quickly crumbled. The Powhatan Indians were unwilling to help the settlers, killing anyone who ventured outside the fort to forage. Trapped behind their wooden palisades, supplies quickly dwindled—leading to tactics that were disgustingly primeval yet necessary for survival.

Now, 400 years later, a cellar excavation has uncovered numerous bone fragments—all belonging to this adolescent female. More surprising than their location are the interesting cut marks on the lower jaw and front of the cranium. With the help of forensic anthropologists, the extraordinary and frightening story of this young woman comes to life.

## Live From Lincoln Center – "Act One"

Few have captured the magic of the theatre better than Moss Hart, a poor kid from the Bronx who went on to become a lion of Broadway. The writer of classic comedies, including *You Can't Take it With You* and *The Man Who Came To Dinner*, Moss wrote a memoir ("Act One") which has captivated theater lovers for over 50 years.

In this Tony Award-nominated Best Play, James Lapine has re-imagined this memoir for the stage, creating a world as vivid and transformative as the stage itself. "Act One" features a first-rate cast led by Tony Shalhoub ("Monk").

"Act One" on **Live From Lincoln Center** airs Friday, the 13th at 9:00 p.m. On HD3-1, it airs Saturday, the 14th at 7:00 p.m.

Andrea Bocelli

## *Andrea Bocelli: Cinema*

In “Andrea Bocelli: Cinema” on **Great Performances**, the international superstar tenor lends his unique voice to a lush symphonic salute to the movies, celebrating some of the greatest celluloid songs and scores of all time written by a varied range of Italian and Hollywood composers. The concert special also reunites Bocelli with legendary music producer David Foster, whose first collaboration with the tenor was Foster’s own Academy Award-nominated song “The Prayer,” a duet with Celine Dion in 1999.

The songs in this new concert—many from Oscar-winning scores—are etched in the culture and hearts of several generations, including epic theme songs featured in films such as “Doctor Zhivago,” “Love Story,” “The Godfather,” “Life is Beautiful,” “Il Postino,” “Breakfast at Tiffany’s,” and many more, as well as popular songs from stage musicals, immortalized by their film versions, such as “West Side Story” and “Evita.”

**Andrea Bocelli: Cinema** will be broadcast Friday, the 27th at 8:30 p.m.

## *Eric Clapton: Slowhand at 70 Live at the Royal Albert Hall*

Join the legendary guitarist for a celebration of his 70th birthday with this concert featuring Clapton classics, including “Wonderful Tonight,” “Layla,” and “Tears in Heaven.” **Slowhand at 70** captures an immense celebration not just for his birthday, but to toast the artist’s close relationship with the Royal Albert Hall itself. The concert marks 50 years since Clapton made his debut there on December 7th, 1964. He is the first guitarist to reach 200 performances at this classic venue.

**Slowhand at 70** begins with an intimate start reminiscent of a small blues club, with beams of light and smoke outlining the raw intensity of Clapton onstage. With the ebb and flow of Clapton’s extensive set list, the energy continues to build with each track to the epic finale and the massive renditions of “Crossroads” and “Cocaine,” moving the viewer from the small club setting to become part of the vast and rapturous audience in the glorious venue.

**Eric Clapton: Slowhand at 70 Live at the Royal Albert Hall 2015** can be seen Saturday, the 28th at 8:30 p.m.

Dr. Daniel Amen

## On the Psychiatrist's Couch with Dr. Daniel Amen

*The Washington Post* wrote that by almost any measure Dr. Daniel Amen is the most popular psychiatrist in America. He is a double board certified psychiatrist, who has written 10 *New York Times* bestselling books, including the mega-bestseller *Change Your Brain, Change Your Life*.

In **On the Psychiatrist's Couch**, his 10th national public television special, Dr. Amen gives viewers the most important lessons he has taught to thousands of patients over the last 35 years.

The people who've sat on his psychiatrist's couch came for help for anxiety and depression, ADD, autism, and bipolar disorder, addictions they couldn't stop, relationships that were falling apart, and children who were out of control or failing in school. Others came because they wanted to perform better, sleep better, or decrease their risk for illnesses like Alzheimer's disease they saw in their parents.

If you or someone you love has ever been concerned about any of these issues, this show is for you. You'll learn that normal is a myth. Face it, we're all a little crazy and could use some help from time to time. It is the smart person who asks for help when he needs it. Asking for help is a sign of strength, not weakness. This couch is for people who want to feel better and improve the quality of their lives.

**On the Psychiatrist's Couch** will be broadcast Sunday, the 29th at 1:00 p.m. On HD3-1, it airs Friday, the 27th at 8:00 p.m.

The girls performing on the night are Máiréad Nesbitt, Susan McFadden, Máiréad Carlin, and the newest addition to the troupe, Éabha McMahon. They are joined on stage by original **Celtic Woman**, Meav, performing on some of the songs.

Australia is the world's biggest island and it takes days for these majestic trains to cross it. Three train routes—The Indian Pacific, The Sunlander, and the world famous Ghan—together crisscross more than 7,000 kilometers (4,350 miles) of Australia and encompass 5 different time zones, spanning the country completely from east to west and north to south.

**Making Tracks** can be seen Mondays at 10:00 p.m. beginning the 2nd. On HD3-1, it airs Mondays at 11:00 a.m. beginning the 16th.

## The Gettysburg Story

Over three days in 1863, war-weary Union and Confederate soldiers met at a backwater Pennsylvania crossroads to decide the fate of the nation. **The Gettysburg Story** tells the epic tale of the bloodiest battle ever fought on American soil and the greatest man-made disaster in American history.

The documentary recounts the pivotal events and intimate stories from the iconic Civil War battle immortalized in Lincoln's "Gettysburg Address." Cutting-edge cinematography techniques reveal the grand scale of the 6,000-acre battlefield, including the legendary sites of Little Round Top, Devils Den, The Railroad Cut, Cemetery Ridge, and the fields of Pickett's Charge.

## INDEPENDENT LENS "India's Daughter"

"India's Daughter" on **Independent Lens** is the story of the brutal gang rape and murder in Delhi of 23-year-old medical student Jyoti Singh, and how the aftermath led to protests and serious soul-searching in India.

On a mid-December night in 2012, Jyoti went with a male friend to a movie, and then left on a bus. On that bus, six men beat her friend unconscious and, for almost an hour, gang raped and beat her while the bus drove around. Two weeks later, Jyoti died after seven surgeries.

The details of her horrific rape captured the country's attention, and demonstrations erupted throughout India as women and men alike took to the streets.

"India's Daughter" paints a complicated picture of a country wrestling to embrace modernity while still dealing with outdated paternalistic cultural attitudes towards women and their place in society.

This **Independent Lens** airs Monday, the 16th at 9:00 p.m. On HD3-1, it airs Monday, the 16th at 7:00 p.m. and Tuesday, the 17th at 7:00 a.m. and 2:00 p.m.

## Dead Reckoning: Champlain in America

**Dead Reckoning: Champlain in America** is a beautifully animated documentary based on Samuel de Champlain's accounts of his journeys in America.

France's King Henri IV sent Champlain to the New World to draw maps to help the French navigate its extensive waterways. Like Christopher Columbus, Champlain sought a northwest passage to China.

Arriving in the St. Lawrence River area in 1603, Champlain wrote detailed dispatches about his epic journeys across thousands of miles of uncharted North American wilderness. His vivid descriptions remain some of the earliest accounts of the first encounters between Europeans and Amerindians.

**Dead Reckoning: Champlain in America** airs Friday, the 20th at 11:00 p.m. and Sunday, the 22nd at 10:00 a.m.

PBS.

# Chaplains

This two-part documentary takes viewers into the dynamic world of chaplains—men and women who represent their own particular faith tradition, but are trained to be of comfort and support to everyone—religious or not.

While there have been chaplains on the battlefield for centuries, today's battlefields can be anywhere people feel danger or despair, or where they simply need a spiritual connection.

Through personal profiles of chaplains, including a Buddhist, a Catholic priest, a Muslim, a Rabbi, and US Senate chaplains, the documentary explores their daily lives throughout society, from their role in the military and the workplace to their work in prisons and behind-the-scenes of NASCAR.

The film provides a window into religious diversity in America today and the murky nature of the American principle of separation of religion and state.
