HOW WE GOT TO NOW

In **How We Got to Now**, join author Steven Johnson to hear extraordinary stories behind remarkable ideas that made modern life possible. The six-part series reveals the unsung heroes who brought them about, the unexpected and bizarre coincidences, the intense rivalries, terrible failures, and moments of heroic achievement that made theories into realities and changed the world. The ideas are broken down into six themes that encompass the pillars of modern civilization: Clean, Time, Glass, Light, Cold, and Sound.

Dirty water has killed more humans than all the wars of history combined, but in the last 150 years, a series of radical ideas, extraordinary innovations, and unsung heroes have changed our world. "Clean" plunges into a sewer to understand what made a maverick engineer decide to lift the city of Chicago with jackscrews in order to build America's first sewer system. It reveals how John Leal deliberately "poisoned" the water supply of 200,000 people when, without authorization, he added chlorine, considered lethal in 1908, into Jersey City's water and made it safe to drink.

The story of getting a grip on "Time" is full of curious garage tinkerers. One of them, railway clerk William F. Allen, was so exasperated by the chaos caused by the hundreds of local time zones in the U.S., that he fought tirelessly to standardize time into four zones.

"Glass" reveals the daring exploits of glassmakers who were forced to work under threat of the death penalty, a physics teacher who liked to fire molten glass from a crossbow, and a scientist whose tinkering with a glass lens allowed 600 million people to see a man set foot on the moon.

In "Light," we learn about Edison's light bulb, which he didn't actually invent, and learn how an 18th-century shipping community discovered a source of illumination by putting a kid inside a whale's

In "Cold," visit Ski Dubai, a 242,000 square foot indoor ski resort in the middle of the Arabian Desert.

head. See how a French scientist accidentally discovered how to create neon light, leading to a revolution in advertising.

Only in the last 200 years have humans learned how to make things cold. "Cold" explains how ice entrepreneur Frederic Tudor made ice delivery one of the biggest export businesses in the U.S. and describes the place where Clarence Birdseye, the father of the frozen food industry, experienced his eureka moment.

Finally, "Sound" journeys to the Arcy sur Cure caves in northern France, where the first traces of the desire to record sound can be found—30,000 years ago. The program also reveals the difference that radio made in the civil rights movement and the beautiful Hollywood star (hint: first name Hedy) who designed a WW2 weapon that would make possible the modern cell phone network.

On both 3-2 and HD3-1, the first episode ("Clean") of **How We Got to Now** airs Wednesday, October 15th at 8:00 p.m and the second episode and remaining episodes will be broadcast Wednesdays at 9:00 p.m. also beginning October 15th. On HD3-1, the series repeats Thursdays at 11:00 a.m. and 4:30 p.m.

Great Performances

Tony Bennett & Lady Gaga: Cheek To Cheek LIVE!

Great Performances
"Tony Bennett & Lady Gaga:
Cheek To Cheek LIVE!" features an evening of classic
jazz standards in both vocal
duets and solo performances.
Taped at Jazz at Lincoln
Center's Frederick P. Rose
Hall, each song was handpicked by the artists, and features classic selections from
the Great American Songbook, including "It Don't

Mean a Thing (If It Ain't Got That Swing)," "Sophisticated Lady," "Lush Life," "Anything Goes," and the title track from their forthcoming album, *Cheek To Cheek*. The stars are joined by a 39-piece orchestra with soloists Chris Botti on trumpet and David Mann on tenor sax.

Great Performances "Tony Bennett & Lady Gaga: Cheek To Cheek LIVE!" will be broadcast Friday, October 24th at 9:00 p.m. and Sunday, October 26th at 10:30 p.m. On HD3-1, the program can be seen Saturday, October 25th at 7:00 p.m.

Rise of the Black Pharaohs

The Egypt of the Great Pyramids,

the Sphinx, and the Valley of the Kings was an empire of indomitable might. Then, around 800 BC, the impossible happened. Kush, a subject kingdom from the south, rose up and conquered Egypt, enthroned its own pharaohs and ruled for nearly 100 years.

Rise of the Black Pharaohs explores the mysterious Black Pharaohs—the Nubian kings—whose reign has become legendary among Africans and written off as heresy by early archaeologists who refused to believe that dark-skinned Africans could have risen so high.

The program features exciting new archaeological finds in Sudan that are revealing the truth about the great Kush dynasty. Geoff Emberling, one of the archaeologists in the film, is digging his way into a royal pyramid/tomb at a site called El Kurru. He hopes to find the bones of a Kushite king and the treasure he took with him into the afterlife. Emberling is following in the footsteps of famous archeologist George Reisner, who excavated most of the other major Kushite sites, but could never get past his racial myopia and accept that these dark-skinned African people had built such an advanced and powerful society.

Rise of the Black Pharaohs will be broadcast Wednesday, October 1st and 9:00 p.m. on both 3-2 and HD3-1. On HD3-1, it repeats Thursday, October 2nd at 11:00 a.m. and 4:30 p.m.

PBS' premier science series reveals the inside story of the search for Maylasian Flight MH370, recreated and 10 uncovers secrets of deadly WWI flying machines.

Why Planes Vanish

The disappearance of Malaysian Flight MH370 stunned the world. In an era of smart-phones and GPS, how could a 270-ton passenger jet vanish into thin air? It was a rude awakening for all of us, showing just how far we are from the world we imagined we lived in—in which every move is monitored all the time.

In "Why Planes Vanish," Nova tells the inside story of the search for Flight MH370, and introduces the key players from all corners of the globe who have spent months searching for the lost plane.

In the search for answers, **Nova** reveals how today's planes must fly through vast radar "blind spots," and investigates new technologies that could allow ground stations and satellites to track planes automatically, without pilot intervention, even in remote areas with no radar coverage.

"Why Planes Vanish" on **Nova** airs Wednesday, October 8th at 8:00 p.m., Saturday, October 11th at 10:00 p.m., and Sunday, October 12th at 12:00 midnight. On HD3-1, it airs Wednesday, October 8th at 8:00 p.m., Thursday, October 9th at 8:00 a.m. and 1:00 p.m., and Sunday, October 12th at 4:00 p.m.

Benjamin Franklin's Balloons

The first stage in the adventure of human flight began with daring inventors and aeronauts in 18th-century Paris, where a handful of brilliant pioneers developed all the essential features of today's hot air and gas balloons. Their exploits fascinated Benjamin Franklin, who was serving in Paris as the American ambassador.

To explore this burst of innovation, "Benjamin Franklin's Balloons" on Nova re-creates key flights, including the world's first manned voyage on November 21st, 1783.

A descendant of the Montgolfier brothers, who invented the hotair balloon, joins a team to build an accurate replica of the fragile paper and canvas craft using 18th-century tools and materials. Nova evokes the thrilling and daunting prospect that the balloon pioneers faced as they left Earth for the first time.

"Benjamin Franklin's Balloons" on **Nova** airs Wednesday, October 22nd at 8:00 p.m., Saturday, October 25th at 10:00 p.m., and Sunday, October 26th at 12:00 midnight. On HD3-1, it it will be broadcast Wednesday, October 22nd at 8:00 p.m., Thursday, October 23rd at 8:00 a.m. and 1:00 p.m., and Sunday, October 28th at 4:00 p.m.

First Air War

When World War I began in 1914, the air forces of the opposing nations consisted of handfuls of rickety biplanes from which pilots occasionally took pot shots at one another with rifles. By 1918, the fighter had become an efficient killing machine with a growing strategic impact on the outcome of the war.

With the help of aviation buffs dedicated to bringing back classic WWI fighters, "First Air War" on **Nova** joins the team as they uncover the secrets of some of aviation's most colorful and deadly early flying machines and explores how their impact played a key role in the nightmare slaughter of the Western Front.

"First Air War" on **Nova** Wednesday, October 29th at 8:00 p.m., Saturday, November 1st at 10:00 p.m., and Sunday, November 2nd, at 12:00 midnight. On HD3-1, it airs Wednesday, October 29th at 8:00 p.m., Thursday, October 30th at 8:00 a.m. and 1:00 p.m., and Sunday, November 2nd, at 4:00 p.m.

Austin City Limits Celebrates 40 Years

The two-hour starstudded special celebrates the trailblazing music series' 40th anniversary. With guest hosts Jeff Bridges, Matthew McConaughey, and Sheryl Crow, the program features memorable moments from

the show's remarkable run, anchored by some of the brightest stars in the show's history returning to the Austin City Limits stage for incredible performances.

Highlights include legends Willie Nelson, Bonnie Raitt (shown), Foo Fighters, Emmylou Harris, Kris Kristofferson, Gary Clark Jr., Lyle Lovett, Alabama Shakes, Buddy Guy, and more, performing in celebration of Austin City Limits' legacy as an American music institution over the last four decades.

Austin City Limits Celebrates 40 Years can be seen Saturday, October 4th at 9:00 p.m. and 12:00 minight. On HD3-1, it airs Saturday, October 4th at 7:00 p.m.

The Nance Starring **Nathan Lane**

"The Nance Starring Nathan Lane" is part of the 40th anniversary season of Live From Lincoln Center. The award-winning play received five Tony Award nominations.

"The Nance" integrates burlesque sketches with the portrait of a homosexual man, living and working in the secretive and dangerous gay world of 1930s New York, during the time of Mayor Fiorello La Guardia's campaign to ban burlesque.

The two-and-onehalf-hour play tells the story of Chauncey Miles (Lane), a headline nance (a parody of a gay man), whose outrageous antics on the burlesque stage stand in marked contrast to his offstage

life and his own self-loathing.

"The Nance Starring Nathan Lane" on Live From Lincoln Center airs Friday, October 10th at 9:00 p.m. On HD3-1, it airs Saturday, October 11th at 7:00 p.m.

Gershwin's **Porgy and Bess**

George and Ira Gershwin's masterpiece opera Porgy and Bess premieres on PBS with the critically-acclaimed production from San Francisco Opera.

Gershwin's Porgy

and Bess stars bass-baritone Eric Owens as Porgy and soprano Laquita Mitchell as Bess in the turbulent story of a disabled man, the headstrong woman he loves, and the rural African-American community in coastal South Carolina that sustains them both.

Porgy and Bess is based on the play by Dubose and Dorothy Heyward, with music by George Gershwin including the celebrated standards "Summertime," "It Ain't Necessarily So," "Bess You Is My Woman Now," and many more.

Gershwin's Porgy and Bess from San Francisco Opera airs Friday, October 17th at 9:00 p.m. On HD3-1, it airs Saturday, October 18th at 7:00 p.m.

Death Comes to Pemberley

What happens after Elizabeth and Darcy tie the knot at the end of Jane Austen's classic novel *Pride and Prejudice*? Crime-writing legend P.D. James has the answer in "Death Comes to Pemberley," a beautifully produced, two-part, spellbinding miniseries now appearing on **Masterpiece Mystery!**

To recap: *Pride and Prejudice* describes the courtship of Elizabeth Bennet, one of five unmarried sisters with practically no money. The eligible men in her orbit include Mr. Darcy, who is rich but aloof, and a charming army officer named Wickham. Wickham's account of Darcy's dishonorable behavior poisons minds against the affluent landowner. But in the end, it is Wickham who is the cad, since he runs away with the impressionable youngest Bennet girl, Lydia. Darcy proves to be a man of integrity, and his proposal to Elizabeth is eventually accepted.

"Death Comes to Pemberley" opens six years after these events with an impending ball at Pemberley, the palatial estate where Elizabeth (Anna Maxwell Martin) and Darcy (Matthew Rhys) make their home with their young son, Fitzwilliam. Many friends and relatives

are invited. However, Wickham (Matthew Goode) and Lydia (Jenna Coleman) are not, owing to Wickham's past disgraceful conduct with ladies. But that doesn't stop the dashing officer from heeding Lydia's appeal to crash the party, and they set off by coach. Hours later, a coach arrives at Pemberley at breakneck speed with an hysterical passenger shrieking, "Murder!"

Darcy (Matthew Rhys) and Elizabeth (Anna Maxwell Martin)

Revenge, mysterious paternity, and a ghost all figure in the ensuing plot, which would have kept Jane Austen on the edge of her Windsor chair. "Death Comes to Pemberley" is a delightful way to solve a murder, catch up with some of literature's best-loved characters, and tie a few romantic loose ends that Jane Austen left dangling...

"Death Comes to Pemberley" on **Masterpiece Mystery!** will be broadcast Sundays at 8:00 p.m. beginning October 26th on both 3-2 and HD3-1. On 3-2, it repeats Fridays at 10:00 p.m. beginning October 31st.

Theater of the Mind

Dracul a &
Twisted Tales of Poe

Theater of the Mind presents "Dracula" and the "Twisted Tales of Poe." It's radio you can see, complete with actors, music, and a crew of sound effects technicians,

creating it all right before your eyes. As is the custom with these dramas, the actors play multiple roles and employ vintage microphones to simulate radio's Golden Age.

"Dracula: Theater of the Mind" follows the story of a small band of mortals who faced the most powerful vampire of them all. It is 1888 and, in Whitby, England, Lucy Westenra has fallen ill. Her fiancée, Jack Seward, has brought her to his sanitarium, next door to an old Abbey owned by a Count Dracula.

The mysterious and macabre writings of Edgar Allan Poe form the basis for "Twisted Tales of Poe." The program presents three of Edgar Allan Poe's tales: "The Tell-Tale Heart," "The Cask of Amontillado," and "The Raven." The mysterious presence of the raven, the victim's "vulture eye," and the catacombs of Italy are created through "theatre of the mind" in the imaginations of the listening audience.

"Dracula" on **Theater of the Mind** airs Friday, October 3rd at 9:00 p.m. On HD3-1, it airs Friday, October 24th at 9:00 p.m. "Twisted Tales of Poe" can be seen Sunday, October 19th at 11:30 p.m. On HD3-1, it airs Friday, October 31st at 8:00 p.m.

Bully [I]NDEPENDENT LENS

Over 13 million American kids will be bullied this year, making it the most common form of violence experienced by young people in the nation. "Bully" on **Independent Lens** brings human scale to this startling statistic, offering an intimate, unflinching look at how bullying has touched five kids and their families.

The film opens a window onto the pained and often endangered lives of bullied kids, revealing a problem that transcends geographic, racial, ethnic, and economic borders. It documents the responses of teachers and administrators to aggressive behaviors that go beyond "kids will be kids" clichés.

"Bully" on **Independent Lens** airs Monday, October 13th at 9:00 p.m. On HD3-1, it airs Friday, October 17th at 8:00 p.m.

Twin Sisters

"Twin Sisters" tells the amazing true story of Mia and Alexandra, twin Chinese infants found in a cardboard box and taken to an orphanage in 2003. Two families—from Norway and California—arrived in China to claim their longed-for babies but by a twist of fate, they also met each other.

Despite being assured that the girls were not twins, the new mothers exchanged contact information and decided to do a DNA test. By the time the results confirmed that the girls were indeed twins, they were deeply entrenched in their new families—Mia, an all-

American girl in the U.S. and Alexandra, in the beautiful but isolated Norwegian village of Fresvik, population 243. When finally they meet again as eight year olds, they are unmistakably linked to each other.

"Twins" on **Independent Lens** airs Monday, October 20th at 9:00 p.m. On HD3-1, it airs Monday, October 20th at 8:00 p.m., Tuesday, October 21st at 7:00 a.m. and 1:00 p.m., and Saturday, October 25th at 9:00 p.m.

Brakeless

"Brakeless" on Independent Lens is a cautionary tale for a society that equates speed with progress.On Monday, April 25th, 2005, a West Japan Railway (West JR) commuter train carrying 700 passengers smashed into an Osaka apartment building at 117 kilometers per hour (72.7 mph), killing 107 people, including the driver. Official reports later concluded that the cause of the accident was the driver, who was frantically speeding because he was 80 seconds behind schedule. Even small delays in the commuter train schedule were investigated, and the possibility of stiff disciplinary penalties or outright dismissal weighed heavily on the drivers.

"Brakeless" on **Independent Lens** airs Monday, October 27th at 9:00 p.m. On HD3-1, it airs Monday, October 27th at 8:00 p.m. and Tuesday, October 28th at 7:00 a.m. and 1:00 p.m.

GREAT ESTATES SCOTLAND

Great Estates Scotland, a four-part series, takes an in-depth look at the workings of some of Scotland's most magnificent country estates through the eyes of the current owners, the ghillies, the gardeners, and the housekeepers, not forgetting the paying guests who frequent these stunning country estates. The programs tell the fascinating stories behind these magnificent buildings.

For more than 500 years, Inveraray Castle has housed the chieftain of one of the world's best-known family clans, the Clan Campbell. It is now the home to the 13th Duke of Argyll, His Grace Torquhil Ian Campbell, and his young family. Visited by thousands every year, the castle was the stand-in for "Duneagle" in the "Downton Abbey" Christmas special.

Part two travels to Dumfries House, an architectural gem that boasts one of the largest collections of Chippendale furniture in the world. The once-neglected mansion was dramatically brought back to life by HRH The Prince of Wales.

Part three visits the 70-room Kincardine Castle, home to only two people, Andrew and Nicky Bradford. In a little over a cen-

tury, the castle and its 3,000-acre estate have gone from being a trifling extravagance for its fabulously rich owners to presenting a passionate but ongoing struggle to keep it afloat for its present-day occupants.

The final episode uncovers myths and legends of mysterious Rosslyn Chapel, where part of The Di Vinci Code was filmed. Many believe it to be home to the Holy Grail, the skull of St. Matthew or John the Baptist or even of Jesus Christ.

Great Estates Scotland airs Sundays at 9:30 p.m. beginning October 5th on both 3-2 and HD3-1.

POV

The Act of Killing

Nominated for an Academy Award, "The Act of Killing" on **P.O.V.** is as dreamlike and terrifying as anything one could imagine. The film explores a horrifying era in Indonesian history and provides a window into modern Indonesia, where corruption reigns. Not only is the 1965 murder of an estimated one million people honored as a patriotic act, but the killers remain in power.

In a mind-bending twist, death-squad leaders dramatize their brutal deeds in the style of the American westerns, musicals, and gangster movies they love—and play both themselves and their victims. As their heroic facade crumbles, they come to question what they've done. The film is the winner of the 2014 British Academy Award for Best Documentary.

"The Act of Killing" on **P.O.V.** airs Monday, October 6th at 9:00 p.m. On HD3-1, it can be seen Friday, October 10th at 8:00 p.m.

Fall Membership Drive October 18th – October 25th

First, we want to thank all of our listeners who contributed during our "Summer of Fun" drive. With your help, we were able to reach our goal and continue to provide you the programming you enjoy. Now it is time once again to ask for your support. Our KENW Public Radio Network Fall Membership Drive begins October 18th.

During this fall drive, our goals are to exceed \$18,000 and to broadcast more programming with fewer on-air interruptions. To that end, we are asking that you make your pledge of support now, in order to shorten the length of our drive.

You can make a pledge by calling (575) 562-2112, toll free at 1-888-367-5369 or online at kenw.org.

We appreciate all of our members and hope that you will consider a pledge of any amount in support of your favorite programs. We look forward to hearing from you.

In the November 4th General Bond Election, BOND C is worth \$139 million for higher education institutions throughout New Mexico.

BOND C will enable New Mexico's institutions of higher learning to remain competitive with those in neighboring states.

Since other bonds are retiring, the net increase to you in property taxes if BOND C passes is zero.

BOND C will allow Eastern New Mexico University \$11 million to renovate and convert the Golden Library into the Golden Student Success Center, which will house a tutoring center, a writing center, a new veteran's center and more, along with the library holdings.

BOND C will provide \$500,000 to Clovis Community College for infrastructure repairs and renovation.

Tuesday, November 4th
