KLCC STRATEGIC PLAN

2015 – 2018

JANUARY 2015

INTRODUCTION

Like all media organizations, KLCC finds itself operating in a rapidly changing, highly competitive environment. New platforms and distribution models threaten its long-standing primacy as the sole local outlet for public radio's most popular programs. Expenses rise while competition for funding grows increasingly fierce.

To help KLCC meet these emerging challenges, a group of community members, licensee representatives, KLCC staff and volunteers was convened in the fall of 2014. Meeting over a period of five months, the group crafted a four year plan for sustainable station growth and development that will expand and strengthen KLCC's role as a unique and indispensable community institution.

The group's review of KLCC current strengths, weaknesses, opportunities and threats revealed an organization with three significant opportunities for growth:

- Increased financial support, from listeners, underwriting and grants
- Greater community engagement with both individuals and institutions
- Strengthened local news service, focusing initially on the content area most highly valued by KLCC listeners; news and cultural information

Making greater use of emerging digital platforms will be a vital component of the work to be done in all three areas.

The station's ability to realize growth opportunities will be further strengthened by an array of actions that will enhance KLCC's organizational effectiveness through improved station collaboration and operational efficiencies.

Our profound thanks go to all who contributed their time and ideas to the development of this plan; the members of KLCC's Strategic Planning Group, KLCC staff and volunteers, and those individuals whose generous support made the planning process possible.
