**Quarterly Program Topic Report**  
**October, November, December**  
**2016**

**KRWG-TV is the PBS station located in Las Cruces, New Mexico. We are licensed by New Mexico State University and our offices are located on NMSU's Las Cruces campus. KRWG-TV is proud to be the only television station in southern New Mexico. We also provide unique services in the El Paso, Texas/Las Cruces, New Mexico service area.**

**Through meetings with citizens and community leaders, partnerships with area newspapers and other organizations, and extensive production of news and public affairs programming, the staff of KRWG-TV has determined the following issues are of primary importance to our coverage area:**

**Health/Welfare/Safety – While the over-all crime rate is no higher than the national average, poverty and a higher than average teenage population contribute to a gang and crime problem. Poverty also results in health and welfare issues including an above average social services caseload and a high number of welfare cases handled by the local hospital.**

**Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. Cultural and historical understanding is of great importance.**

**Business - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is crucial. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing to boost border trade.**

**Politics/Public Affairs – Southern New Mexico and the United States have a wide variety of contentious political issues that are of constant interest to the citizens of the involved communities.**

**Education – With a constantly growing population of children, many of whom use Spanish as their primary language, the school systems in the KRWG-TV viewing area are constantly trying to provide facilities and teachers to meet this growing school age population with limited funds. New Mexico is one of the poorest per-capita states in the nation, which results in a chronic shortage of funds for local education.**

**Water/Environment – KRWG-TV is located in a desert with two major sources of water: the Rio Grande River and an aquifer that supplies**

**drinking water to Las Cruces and surrounding areas in the Mesilla Valley. Water is the lifeblood of the region and conflicts are escalating over the requirements of a growing urban population and agriculture.**

**Title:** **DANIEL TIGER'S NEIGHBORHOOD**

**Daniel Tiger's Neighborhood** is a new, beautifully-textured animated series from PBS KIDS for preschoolers aged 2-4, based on the legacy of Fred Rogers. Its cast are the children of his original and much-loved Neighborhood of Make-Believe characters. A young Daniel Tiger is joined by his friends O the Owl, Katerina Kittycat, Prince Wednesday and Miss Elaina. Together, through imagination, creativity and music they learn the key social skills necessary for school and for life.

Every Daniel Tiger's Neighborhood episode offers a parenting strategy. The clip below is from an episode about first experiences—a visit to the doctor and a 'look around' visit to school. The parenting strategy being modeled shows that by talking to children in advance about what to expect, parents can ease any apprehension they may be feeling. As in all Daniel stories, the strategy is offered as a musical 'jingle' – in this case “When we do something new, let's talk about what we'll do!”

Building on the landmark PBS series Mister Rogers' Neighborhood, **Daniel Tiger's Neighborhood** is a new series for a new generation of children. Launching in fall 2012 on PBS KIDS, the series tells engaging stories about the life of a preschooler and is accompanied by cross-platform games and activities for the very youngest children, together with online resources for parents and teachers. Daniel was developed by **The Fred Rogers Company**, and brings together a group of today's leading creators of children's media and educational technology. The series tells its engaging stories using musical strategies grounded in Fred Rogers' landmark curriculum: its songs give parents and children a concrete way to practice important school-readiness skills together.

**Title:** **MARTHA SPEAKS**

MARTHA SPEAKS is an animated series on PBS KIDS. Aimed at viewers between the ages of four and seven, MARTHA's educational goal is to teach kids new words Based on the children's book series by Susan Meddaugh and published by Houghton Mifflin Harcourt, the series stars Martha, a beloved family dog. She is accidentally fed alphabet soup — this gives her the power of speech and the chance to speak her mind to anyone that will listen. With two stories in each episode, kids will get to know Martha as an outspoken, honest, smart, confident dog who loves to eat (and talk!). They will also meet the rest of Martha's family and friends. Ten-year-old Helen is Martha's best friend. Martha encourages the shy, artistic Helen to be more outgoing and brave. Helen acts as the voice of reason for Martha. It's a relationship any dog, or pet-lover, can appreciate.

The series is supported by an educational outreach campaign that includes a cross-age reading buddy program. The show is Closed Captioned and described for the visually impaired. It's produced by WGBH Boston and Vancouver's Studio B Productions.

**Learning Goals**

The goal of MARTHA SPEAKS is to increase oral vocabulary, the words we use when we talk. The shows are not trying to teach kids how to read. They are designed to help kids understand what words mean when they hear them; words like *retrieve*, *sprout*, and *crave*. Vocabulary is one thing that predicts if children will be good readers. Once they are in school and they see these words, children will need to know what they mean. If children have heard the words before that familiarity will help them as they learn to read. MARTHA SPEAKS is designed to teach up to 20 words in each show. And how better to get kids excited about learning and trying out new words than with a talking dog, who just can't stop talking?!

Faith meets science in DEEPAK CHOPRA: THE FUTURE OF GOD - a groundbreaking and thought provoking 60-minute public television pledge special in which world renowned spiritual teacher and medical doctor Deepak Chopra demonstrates that the tools of our most advanced fields of science can be used to answer some of these fundamentally spiritual questions. Most importantly, Dr. Chopra will argue that Religion and Science, when understood at the highest levels, do not contradict each other and, in fact, actually complement each other! Dr. Chopra argues that even those of us brought up in a largely secular, materialistic world, without a devout connection to a religious tradition, can still have a more productive vital life, and a greater sense of well-being and happiness, if we gain a more intimate and powerful connection to the Divine Wisdom of the ages. By combining science, history and philosophy, as only Deepak Chopra can, he delivers a program that embodies and celebrates so much of what is central to the mission of public television: An ongoing, curious and engaging, quest into what it means to be human.

As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.

As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.
