

**KRWG-TV**  
**Quarterly Program Topic Report**

**April, May, June**

**2017**

**KRWG-TV is the PBS station located in Las Cruces, New Mexico. We are licensed by New Mexico State University and our offices are located on NMSU's Las Cruces campus. KRWG-TV is proud to be the only television station in southern New Mexico. We also provide unique services in the El Paso, Texas/Las Cruces, New Mexico service area.**

**Through meetings with citizens and community leaders, partnerships with area newspapers and other organizations, and extensive production of news and public affairs programming, the staff of KRWG-TV has determined the following issues are of primary importance to our coverage area:**

**Health/Welfare/Safety – While the over-all crime rate is no higher than the national average, poverty and a higher than average teenage population contribute to a gang and crime problem. Poverty also results in health and welfare issues including an above average social services caseload and a high number of welfare cases handled by the local hospital.**

**Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. Cultural and historical understanding is of great importance.**

**Business - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is crucial. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing to boost border trade.**

**Politics/Public Affairs – Southern New Mexico and the United States have a wide variety of contentious political issues that are of constant interest to the citizens of the involved communities.**

**Education – With a constantly growing population of children, many of whom use Spanish as their primary language, the school systems in the KRWG-TV viewing area are constantly trying to provide facilities and teachers to meet this growing school age population with limited funds. New Mexico is one of the poorest per-capita states in the nation, which results in a chronic shortage of funds for local education.**

**Water/Environment – KRWG-TV is located in a desert with two major sources of water: the Rio Grande River and an aquifer that supplies**

**drinking water to Las Cruces and surrounding areas in the Mesilla Valley. Water is the lifeblood of the region and conflicts are escalating over the requirements of a growing urban population and agriculture.**

## **HEALTH / WELFARE / SAFETY**

### **Dr. David Perlmutter's Whole Life Plan**

*Sundays, 6/4 at 1pm (90min)*

You can choose your health destiny. Effortless weight loss. Freedom from neurological disorders and other chronic conditions. Boundless energy. A radiant appearance. Sound sleep. A happy belly. A robust immune system. Relief from depression and anxiety. A sharp, fast-thinking brain. A great sense of self-confidence and well-being. A super-high quality of life. These are all terrific goals, and who wouldn't want to achieve them? But such monumental accomplishments don't come without hard work and sacrifices. You can't necessarily turn away from the standard American diet- bread, soda, OJ, sugar, cereal, muffins, bagels, processed foods-and embrace a totally gluten-free, low-carb lifestyle overnight. It takes commitment. It takes effort. But it's doable with the plan outlined in this program. More than a million people around the world have improved their health-physical, mental, and cognitive-thanks to Dr. Perlmutter's bestselling books, Grain Brain and Brain Maker. Now the time has come to bring these two forces together in a highly practical, step-by-step holistic lifestyle program. Welcome to Dr. Perlmutter's Whole Life Plan. Dr. Perlmutter puts his ideas into practice in the real world to show you that living your best life is about much more than what you put in your mouth. It expands upon the core advice in his previous programs and introduces exciting new information about the advantages of eating more fat and fiber, consuming fewer carbs and protein, evicting gluten forever, and catering to your intestinal flora. Food is a central component of the program, but so are other key aspects to achieving the best results: the timing of when you eat, sleep, and exercise; knowing which supplements to take and which medications to potentially drop; reducing daily stress and even chemical exposures in your physical environment; nurturing relationships and your own self-care; addressing the challenges in life with grace and ease; routinely creating goals for your personal development; and finding time for the kinds of physical activities that power the brain while healing the body. The program offers nutritional and health advice that's been validated over and over again in the scientific literature, but also more extensive science has emerged. Even the U.S. government has modified its dietary guidelines to reflect this research, backing away from endorsing low-fat, low-cholesterol diets. If you assume that this is just another diet that will test your willpower and resolve - it will disappoint you on that front. Dr. Perlmutter's Whole Life Plan gives you a jump-start to a healthy way of living that you will be able to sustain indefinitely.

### **28 Day Metabolism with Amy Myers, MD**

*Sunday 6/4 at 930am (90min)*

It's remarkable how many symptoms-large, small, and in between-are connected to your thyroid. In fact, just about every aspect of your metabolism depends on thyroid function; if your thyroid isn't working up to par, you won't be either. Healing and supporting your thyroid is one of the most important ways you can connect to your body-and one of the best ways to achieve optimal health. If you have the sinking feeling that your regular doctor is missing something, because he or she keeps insisting that you're fine, whereas you know that "fine" is the last thing you are, this program has answers for you. That's right. Even if your doctor says you don't have a thyroid problem, you very well might. It's all too sadly possible that the tests you're getting aren't accurate, your doctor is

misinterpreting the results, you're being under-medicated, you're getting the wrong type of medication-or you're suffering from some combination of all those factors. Meanwhile, you're feeling lousy: exhausted, old before your time, and-since your doctor won't believe you-possibly crazy. So breathe a big sigh of relief and get ready to feel better. Because in this program, you're going to find out that you were right all along. There is something wrong with you. You do have a thyroid disorder, it can be treated, and as soon as it is, you're going to feel like a whole new person. Nourishing your thyroid can help clear away the brain fog, soothe anxiety and ease the depression, heal those achy joints and raging hormones, and help you get your sex life back. It can be the key to dropping those extra pounds and never regaining them. And yes, you'll even get your hair growing all thick and healthy-better than you've ever seen it-with clear glowing skin and boatloads of energy to boot. That's what's possible-total vibrant health and nothing less. That's what you can look forward to when your thyroid is working optimally and you're following the diet and lifestyle that supports fabulous health. Thousands of Dr. Amy Myers' patients have achieved it on her plan, and now she's offering her plan to public television viewers. Dr. Myers once practiced as an Emergency Room physician, but soon discovered conventional medicine is a one size fits all model. Her belief is that health shouldn't be viewed as a cookie cutter solution; it's more complex than that. She practices functional medicine, or personalized medicine. No two people are alike. Each of us is unique in our genetic makeup and physiology. What ultimately causes illness in one person is not the same for another, and treatment for each will therefore be different. She knows this from personal experience. Dr. Myers was once diagnosed with autoimmune thyroid dysfunction, and has the unique perspective of a patient as well as a physician. She knows that every detail of your health is interconnected, everything is a clue to your present state of health. In this program she'll help you solve your issues based on the root cause - not simply treat the symptoms.

The results come quickly - not over years, but in a matter of minutes.

Increased flexibility is enjoyed instantly. This unlocking of the muscles creates the leaner look, giving the participant back the body they were meant to have before locking it up in the sedentary and stressful lifestyle of the 21st Century.

### **Core Principles:**

- It is a combination of scientific stretching, PNF, tai chi, yoga, ballet, physiotherapy and chiropractic movements, plus Esmonde-White's research and knowledge of specific exercises that will give you a longer and leaner body.
- It takes the PNF concept to another level -gently freeing the body to a level of flexibility that most people never imagined they could achieve.
- It plays with the concepts of agonist / antagonist and joint rotation to speed the rate of elongation and strengthening which results in a leaner looking body.
- It focuses on spinal rotation and joint alignment, liberating the back from pain and
- Improving posture.

As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to

fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.

Title: **DANIEL TIGER'S NEIGHBORHOOD**

**Daniel Tiger's Neighborhood** is a new, beautifully-textured animated series from PBS KIDS for preschoolers aged 2-4, based on the legacy of Fred Rogers. Its cast are the children of his original and much-loved Neighborhood of Make-Believe characters. A young Daniel Tiger is joined by his friends O the Owl, Katerina Kittycat, Prince Wednesday and Miss Elaina. Together, through imagination, creativity and music they learn the key social skills necessary for school and for life.

Every Daniel Tiger's Neighborhood episode offers a parenting strategy. The clip below is from an episode about first experiences—a visit to the doctor and a 'look around' visit to school. The parenting strategy being modeled shows that by talking to children in advance about what to expect, parents can ease any apprehension they may be feeling. As in all Daniel stories, the strategy is offered as a musical 'jingle' – in this case “When we do something new, let's talk about what we'll do!”

Building on the landmark PBS series Mister Rogers' Neighborhood, **Daniel Tiger's Neighborhood** is a new series for a new generation of children. Launching in fall 2012 on PBS KIDS, the series tells engaging stories about the life of a preschooler and is accompanied by cross-platform games and activities for the very youngest children, together with online resources for parents and teachers. Daniel was developed by **The Fred Rogers Company**, and brings together a group of today's leading creators of children's media and educational technology. The series tells its engaging stories using musical strategies grounded in Fred Rogers' landmark curriculum: its songs give parents and children a concrete way to practice important school-readiness skills together.

**KRWG Airdate and Time:** *Saturdays at 6am ended 4/22 (30min)*

**Title: Mack & Moxy**

Mack & Moxy is a unique children's show that introduces kids to important causes such as hunger awareness, early childhood education, the Let's Move Initiative, saving wild animals, emergency preparedness and Autism. Combining colorful 3D animation, live-action puppets, fun adventures, humor and catchy music, Mack & Moxy teaches children (3-7) life-long lessons of charity and compassion, while celebrating the joy of helping others. Season one has 12 episodes with main characters: Mack, a lovable moose-like lummox and Moxy, a feisty whirlwind of a raccoon/fox-inspired go-getter. Together with a helpful Trooper, played by a different child or a special-guest, they set out on regular adventures to rescue another Great Helpee in a far off mystical place called HelpeeLand. Along the way, Mack & Moxy meet a new Friend-In-Need. Whether it's a bird-like creature who has Autism; a cornstalk kid who's planning his emergency exit in case 'he smells smoke;' or a little tiger-type tyke who wants to save his tiger habitat - the Friend-In-Need introduces Mack & Moxy (and the kids at home) to a new important cause.

**KRWG Airdate and Time:** *M-F at 1130am ended 6/2 (30min)*

**Title: MARTHA SPEAKS**

MARTHA SPEAKS is an animated series on PBS KIDS. Aimed at viewers between the ages of four and seven, MARTHA's educational goal is to teach kids new words Based on the children's book series by Susan Meddaugh and published by Houghton Mifflin Harcourt, the series stars Martha, a beloved family dog. She is accidentally fed alphabet soup — this gives her the power of speech and the chance to speak her mind to anyone that will listen. With two stories in each episode, kids will get to know Martha as an outspoken, honest, smart, confident dog who loves to eat (and talk!). They will also meet the rest of Martha's family and friends. Ten-year-old Helen is Martha's best friend. Martha encourages the shy, artistic Helen to be more outgoing and brave. Helen acts as the voice of reason for Martha. It's a relationship any dog, or pet-lover, can appreciate. The series is supported by an educational outreach campaign that includes a cross-age reading buddy program. The show is Closed Captioned and described for the visually impaired. It's produced by WGBH Boston and Vancouver's Studio B Productions.

**Learning Goals**

The goal of MARTHA SPEAKS is to increase oral vocabulary, the words we use when we talk. The shows are not trying to teach kids how to read. They are designed to help kids understand what words mean when they hear them; words like *retrieve*, *sprout*, and *crave*. Vocabulary is one thing that predicts if children will be good readers. Once they are in school and they see these words, children will need to know what they mean. If children have heard the words before that familiarity will help them as they learn to read. MARTHA SPEAKS is designed to teach up to 20 words in each show. And how better to get kids excited about learning and trying out new words than with a talking dog, who just can't stop talking?!

**KRWG Airdate and Time:** *Saturdays at 730am ended 6/27 (30min)*

**Title: Nature Cat**– NATURE CAT follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."

**KRWG Airdate and Time:** *M-F at 430pm; M-F at 4pm beginning 6/5 (30min)*

The show focuses on two young agents, Olive and Otto, who are part of the Odd Squad, an agency whose mission is to come to the rescue whenever something unusual happens. A math concept is embedded in each of their cases, as Olive and Otto work together to problem-solve and save the day in each episode. ODD SQUAD is created by Tim McKeon (Foster's Home for Imaginary Friends, Adventure Time, The Electric Company) and Adam Peltzman (The Electric Company, The Backyardigans, Wallykazam!) and produced by Sinking Ship Entertainment and The Fred Rogers Company.

The animated 26-part series, targeted to children ages 5 to 8, seeks to tap into kids' natural curiosity while encouraging them to push conventional scientific and technological boundaries through experimentation. Each episode contains two 11-minute segments, both of which promote STEM (Science, Technology, Engineering, Math) principles. Lead character Angie, a 12-year-old prodigy, is always experimenting and designing new inventions with her brother JD, and two other science-minded friends, Kenty and Nicky. When the bright and resourceful pre-teen cracks a 75-year-old code and discovers the secret underground laboratory of her idol, Thomas Alva Edison, the group uncovers a whimsical machine that creates the hologram of a living, breathing Edison. Voiced by American singer-songwriter Livingston Taylor, Thomas Edison "comes to life" to encourage and inspire the kids in all kinds of scientific and technological explorations, including physical science, live science, earth science, space science and other engaging topics. "The Secret Lab" also transforms into a virtual reality environment which transports the kids to the International Space Station, sends them on a "fantastic voyage" within the human body, and introduces them to visionaries Isaac Newton and Galileo.

Real-life Chris and Martin introduce each "Wild Kratts" episode with a live action segment that imagines what it would be like to experience a never-before-seen wildlife moment, and asks, "What if...?" The Kratt brothers' transition into animation and the adventure begins, bringing early-elementary school children into the secret lives of extraordinary creatures, many of which have never been animated before -- including Tiger quolls, Draco lizards, and Caracals!

### **Suze Orman's Financial Solutions for You**

*Sunday 6/4 at 11am & Sunday 6/11 at 330pm (120min)*

We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.

**Quarterly Program Topic Report**  
**Second Quarter, 2017**

***Through meetings with local community leaders, review of area newspapers and other publications, and production of daily newscasts (Monday-Friday), the staff of KRWG-FM/KRXG-FM has determined that the following issues are of primary importance to the citizens within our coverage area:***

**1. *Arts, Entertainment, and Culture*** – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.

**2. *Business, Economic Development, Environment*** - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is an important issue. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing, which is also a source of news and related issues. Environmental concerns are often at odds with economic development pressures.

**3. *Local Public Affairs and Education***– Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.

---

Stories placed in these three main categories are broadcast on local newscasts each weekday (Monday-Friday) at 645, 745, 845, 1644, 1744, and 1844.

Story descriptions and broadcast time(s) are listed on the upcoming pages by topic area.
