KVNF Underwriting Guidelines and Worksheet

Underwriting announcement spots are **30-seconds long**. Spots identify a business or organization and briefly describe their primary goods or services. The Federal Communications Commission (FCC) has established guidelines for value-neutral announcement spots that clearly differentiate public broadcasting from commercial advertising.

We'll create it for you! KVNF staff will work with you to create your support announcement that suits your needs and complies with FCC guidelines. Below is a simple worksheet to outline your business. Your 30 second announcement spot is produced in our studios with familiar local voices from the community. Air times and dates are made custom to business demographics and all sizes of budget - **from as low as \$7 per announcement!**

What Can You Say

- Who you are
- Where you are
- Your contact information
- Your slogan with certain qualifications
- Value-neutral descriptions of your business' products or service(s)

Think about how you might introduce your business at a social gathering.

What Can't You Say

- Anything about a price, discount, sale, or deal
- "Call..." "Come by..." (call to action)
- "Perfect," "Best," "Most..." or anything that compares or qualifies
- Anything that endorses or certifies

Producing a FCC-approved announcement spot is comprised of 3 basic components.

1. Opening: Support for KVNF comes from members and from (YOUR name).

2. Middle: A value-neutral description of the underwriter's primary products, services, or events.

3. Close: Contact information such as website, location or phone number.
