This permit is for the Kuskokwim River upstream of Aniak as defined in 5 AAC 7.365. This permit may NOT be used during preseason closures. You must have this permit with you while fishing for chinook (King) salmon during other closures. This permit does not contain complete regulations pertaining to the Kuskokwim subsistence salmon fishery. The complete regulations in the Alaska Administrative Code are filed with the Lieutenant Governor. Copies of complete regulations are available at local Fish and Game offices.

TEAR HERE AND RETURN BOTTOM PORTION TO ADF&G. POSTAGE PREPAID.

(Fish may be taken for subsistence purposes without a subsistence fishing permit, except as otherwise provided in this section.)

(1) Starting in the 2018 fishing season, during times when the commissioner determines it is necessary for the conservation of king salmon, the commissioner may, by emergency order, require that in the Kuskokwim River drainage, upstream of a line between ADF&G regulatory markers at the Yukon Delta National Wildlife Refuge Boundary near Aniak, king salmon may be taken only under the authority of a subsistence fishing permit with the following conditions:

- (A) annual limit of 10 king salmon;
- (B) fishing under the permit may not commence until the subsistence king salmon fishery opens after June 11 as described in 5 AAC 07.365;
- (C) the commissioner may, by emergency order, implement one or more of the gear limitations specified in 5 AAC 01.270(n) (1) for fishing under the permit;
- (D) permit holders must complete and return permits, including daily records of king salmon harvested, each year by October 31;
- (E) once the annual limit is reached, additional king salmon may not be taken except in compliance with all applicable regulations and emergency orders;
- (F) only one permit may be issued to a household each year;

Each subsistence fisherman must plainly and legibly inscribe his first initial, last name, and address on a keg or buoy attached to a gillnet.
