The district’s theory of action is to begin with intense focus on English language arts and mathematics; as we deepen the understanding of literacy and numeracy, we expect academic improvement in science and social studies. The District’s Strategic Plan includes the implementation of K-12 research based mathematics curriculum in the 17-18 school year. In addition, in the 17-18 school year, there will be research and adoption of K-12 research based English Language Arts curriculum with implementation in the 18-19 school year.

To set the 2020 Spring proficiency goal targets this chart was used. It anticipates a growth rate of 3 percentage point increase in proficiency on the 2017 Spring State Assessment, 3 percentage point increase on 2018 Spring State Assessment, 4 percentage point increase on 2019 Spring State Assessment and 5 percentage point increase on 2020 Spring State Assessment. Our theory of action is growth will accelerate over time with strategies implemented with fidelity. We look forward to exceeding these goals.
