

## STEPHANY MILLER'S FAVORITE STEAMED LOBSTER

### INGREDIENTS

6 lobsters  
Water (preferably seawater)  
Salt to taste

### DIRECTIONS

Pour about an inch of water – preferably seawater - into a very large pot  
If using tap water, add salt to taste  
Bring water to a hard boil  
Add the live lobsters and cover  
Steam 1-pound lobsters for about 9 to 10 minutes. For bigger ones – up to a pound-and-a-half - steam a minute or two longer.  
Serve with melted butter  
***(To create the feast seen above, boil washed potatoes whole (with the skins) in advance. Add corn cobs to the pot with the lobster. Near the end, add the potatoes, then the clams – they only take a couple of minutes to open – a sign that they're done.)***
