

Community Calendar For Core Publisher

Core Publisher has a new set of features for managing events called Community Calendar. It includes an **easy-to-use workflow** for stations and a **responsive design** for audience members.

Community Calendar is integrated into Core Publisher, so stations get **consistent branding and navigation** across their site — and more content is on one platform, so stations get **better SEO** and **easier-to-monitor analytics**.

Find events by keyword, category, or date.

Feature important events at the top of the listings page.

Anyone can submit an event that stations can edit and publish.

The screenshot shows a web interface for a community calendar. At the top, there is a search bar with the text "Find by keyword" and a magnifying glass icon. To the right of the search bar are two dropdown menus labeled "Find By Category" and "Find By Date". Further right is a button labeled "Submit An Event" with a calendar icon. Below the search bar, the section is titled "FEATURED EVENTS". The first event listed is "An Evening of Storytelling with Garrison Keillor" on "APR 28". It includes a location "Macomb Center for the Performing Arts, Clinton Township" and a time "7:30 PM - 9:30 PM". The category is "Theater & Dance: All, Comedy - Improv/Stand-up". The second event is "BATS: Superheroes of the Night Exhibit" from "SEP 26 - JUN 19". It includes a location "Cranbrook Institute of Science, Bloomfield Hills" and a note "Repeats Weekly". The category is "Museum Exhibits, Workshops, Nature Events". A large grey box on the right side of the interface contains the text "UNDERWRITING MESSAGE".

Handle both one-time and recurring events

Associate each event with up to three categories

Include underwriting messages on listings and detail pages.
