Governor Rauner Statement on Dallas Shootings

SPRINGFIELD – Governor Bruce Rauner issued the following statement on the Dallas shootings:

"The ambush attack on Dallas police officers is outrageous. The men and women who work every day to protect everyone, including those exercising their right to free speech, deserve our respect and support. The shootings in Louisiana and Minnesota that led to last night's protests, are deeply distressing. All of these events speak to the lack of unity and trust in many of our communities and underscores the urgency in addressing that lack of trust. Diana and I pray that the victims, their families, and our entire country find strength, healing and peace to rebuild trust among our neighbors and communities."
