

88.9 weku

npr® news & information

The WEKU App is now available for Iphone and Android mobile devices.

Download for Iphone - <http://go.eku.edu/iTunes>

Download for Android - <http://go.eku.edu/Google>

The WEKU App allows you to listen to WEKU Public Radio, pause and rewind the live audio, and view the program schedule for WEKU all at once! You can explore On Demand content, search for programs, bookmark a program for later, and wake up to WEKU with the alarm clock!

Live Streaming

- DVR-like controls (pause, rewind, and fast forward). You can pause the live stream to have a conversation and pick up right where you left off! Or rewind to catch a comment you just missed!
- Listen to live streams from WEKU even while traveling! Start the app and your favorite station starts playing – no clicks to start listening.
- Integrated program schedules for the WEKU streams!
- One click stream switching – flip over to the program you noticed on another stream with a single click.
- Listen to WEKU in the background while browsing the web or catching up on your emails!

On Demand

- Access WEKU's programs easily and quickly.
- DVR-like controls. Pause, rewind and fast forward your program with ease.
- When listening to programs, individual segments (when available) are listed so you can review and choose one or listen to the entire program.
- Easy to access past programs.
- The WEKU App displays the web page associated with the program or program segment you are listening to On Demand so you can explore for more information.

Radio Bookmarks

- Save what you were listening to (Live or On Demand) so you can replay, follow-up, or share it later by simply clicking "Bookmark".

Additional Features

- Easily share stories and programs with family and friends via the "Share" button.
- A built in Sleep Timer and Alarm Clock allows you to go to sleep and wake up to your favorite station.
