Circuit Judge Mark Hulsey issued the following statement in response to the news conference on 6/14/2016:

“I am outraged at the unfair and inaccurate accusation that has been leveled at me in a most cowardly fashion. I did not, and would never, say the reprehensible things that I have been accused of saying. I condemn the content of this alleged statement.

I urge that this accusation be disregarded unless and until the accuser comes forward and makes themselves known to the public. In our country, we have the right to face accusers and, as in this case, hiding behind anonymity at the cost of another person’s reputation is outrageous.”
