"The salary of the Treasurer is paid by three sources: (1) the general fund, (2) the pension fund and (3) the OPEB fund. When the OPEB fund was created a reallocation occurred whereby the general fund portion of the salary was reduced by over \$13,000 and was allocated to the OPEB fund. The work hat we have performed on behalf of the OPEB is being done with no increase in staff. This was discussed openly with the council and the pension fund and is reflected in the 2016 adopted budget. Further, an opinion was prepared by corporation counsel that was requested by the H.R Director not me to address the process of determining a salary increase to an elected official. Further, the salary increase is equivalent to the growth increment that non classified employees receive which in the case of the Treasurer has not happen for more than five years."
