

Life on My Farm
Kinley Thompson

Let's travel down a bumpy, gravel road where a shallow creek runs along that road. That is where my wonderful farm sits on a flat, muddy spot. It is my favorite place.

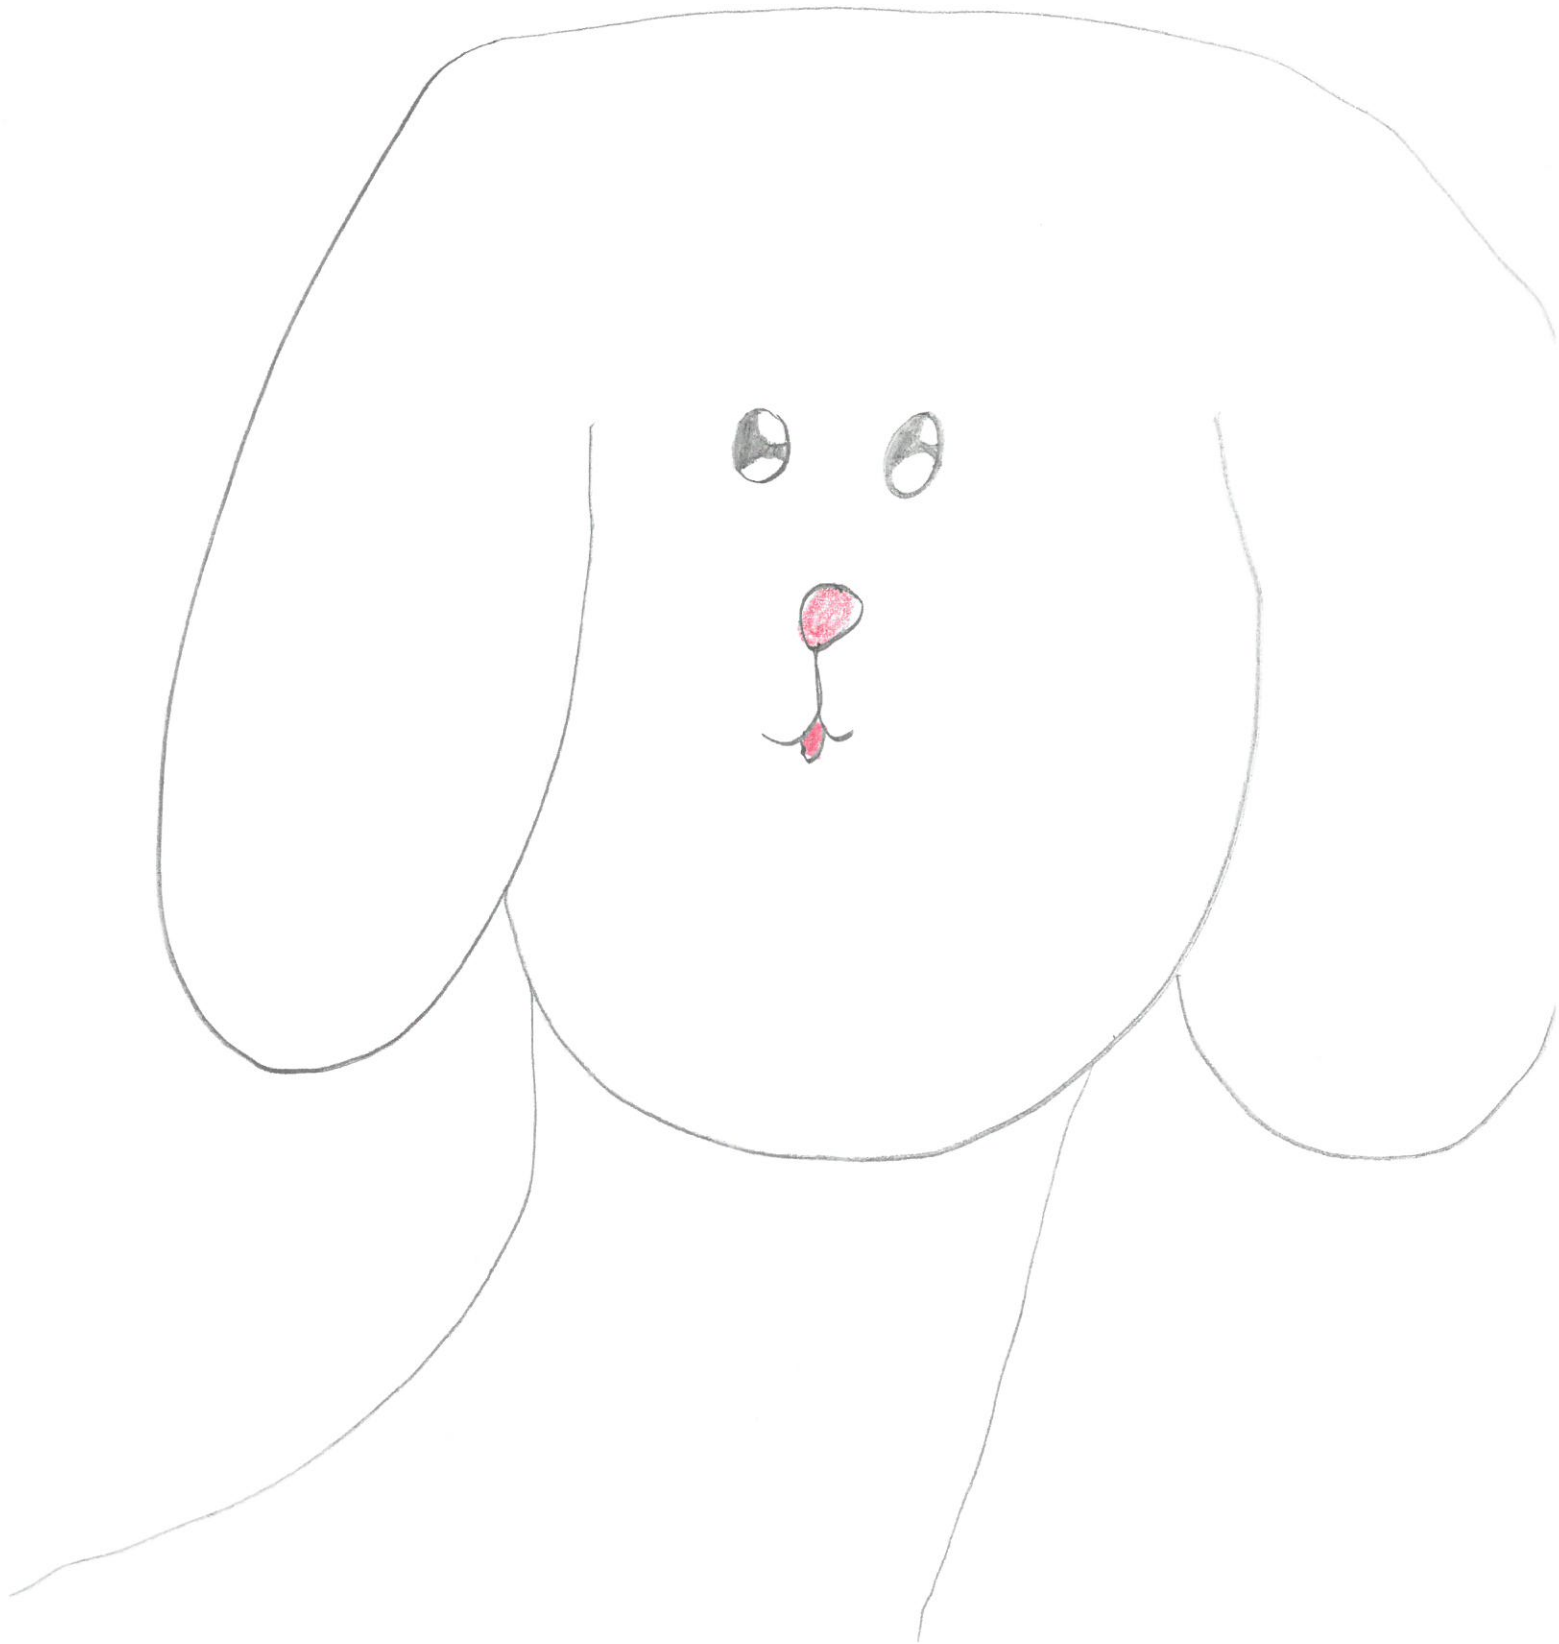

At my farm there are so many animals. My dog Abby is a golden retriever. She is fluffy and yellow. She will jump all over you if you don't pet her. She is an amazing dog. Abby won't bite you, I promise. We have more animals but she is my favorite.

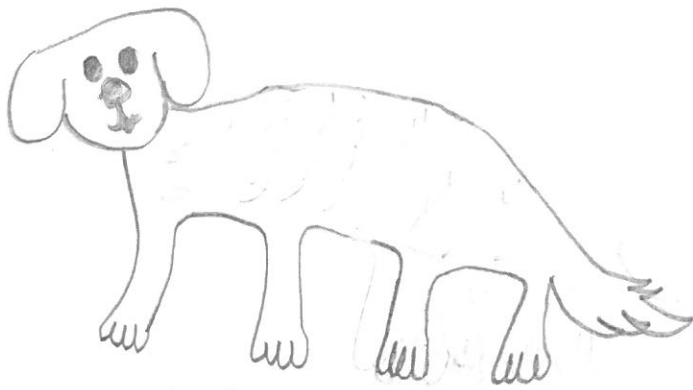

My chores are hard and that makes them kind of fun. One time I was going to the chicken coop to collect eggs. I put one in my pocket because I had seven eggs and I couldn't carry them all. It cracked in my pocket! Oops! I put my dirty sweatshirt in the dirty clothes basket and took a shower. A few days later there was a terrible smell in the house. I remembered the egg! Mom immediately put it in the washer! It took seven washings for the smell to come out! I never collected eggs again!

My farm is an amazing place. I will continue to make wonderful memories there.
