Best of Ohio

WIN The horse you selected has to finish first and you collect the final price that is posted on the tote board.

PLACE Your horse only needs to place first or second and you collect a price a little less than the win price in most races because you take less risk.

SHOW If your horse finishes in the top three you collect a profit, usually less than the win or place payoff. It's the safest way to go to cash a ticket.

DAILY DOUBLE You select horses to win in two consecutive races. You may pick multiple horses in each race.

EXACTA In any race, you place a wager to pick two horses to come in exactly in order. The payoffs are higher than a win-place-show wager.

TRIFECTA You need your three selections to finish 1-2-3 across the finish line.

SUPERFECTA You usually get a super payoff, but now you have to pick the top four horses.

PICK THREE An extension of the Daily Double to the winners of three consecutive races. Profits rise and you can play several horses in each leg.

PICK FOUR Same as the Pick Three, only with four races. The more races, the larger the payoff.

PICK SIX Check your program to see what races start a Pick Six. If no one hits all six, the jackpot grows each day. Payoffs can be huge, and you can play several horses in different legs. The ticket price increases as the number of horses you use goes up.

FURLONG 1/8 of a mile.

TRACK CONDITION It can change quickly.

The ideal is a **FAST** track. The dirt is level with the right amount of moisture that allows horses to get a good grip on the surface. On a sunny day you will see our new water trucks working the track between races to help ensure the right moisture.

A track rated **GOOD** means that some rain has added more moisture than the water trucks would.

MUDDY is the next level down. Tractors will float the track with a huge squeegee to press the water toward the infield.

SLOPPY conditions are when water is still on the track before it drains. Some horses love the slop and you can find that fact in the track program.

MAKING A BET

Whether betting with a teller or using an automated machine, you want to:

1. Identify the track
2. Declare the race number
3. Name the amount you wish to wager
4. Name the type of bet you wish to make

EXAMPLE

Belterra Park, race #1, \$2 to win on the #3 horse.

Before leaving the window or machine, check your ticket. If it is not correct, we can make it right before the race is run.

TYPES OF WAGERS

The options for placing a bet on the races have evolved over the years. At the heading of each program page, you can see what bets are available for every race.
