Graduates of WYSO's Community Voices training program

WE  ...
radio, books, art, news, music,
community, big ideas, dedication,
dialogue, engagement.

WYSO isn't just a public radio station. It's thousands of diverse listeners standing together to be a part of something they truly love. To become part of what we like to call the "We." This is how public radio should be. Every member, underwriter and listener plays a huge role in helping WYSO build on its 57-year legacy of community journalism, activism and engagement.

It's big world out there. Full of ideas, wonder and amazing stories to tell. Together, we can learn, experience and share them all.

our community. our nation. our world.

All Things Considered host Jerry Kenney

ABOUT US

WYSO began with 19 watts of power on February 8, 1958 as a student-run station on the campus of Antioch College. We were on the air four hours a day with an emphasis on local public affairs and music programming.

Today we broadcast 24 hours a day, seven days a week with 50,000 watts of power and we reach nine counties in Southwest Ohio with a potential audience of more than one million listeners. WYSO is the Miami Valley's only NPR News station, and we carry their flagship programs, including *Morning Edition* and *All Things Considered*.

Our own news department delivers local and state news. We have twelve different local music programs hosted by knowledgeable and dedicated volunteers.

Nearly four thousand members and a distinguished roster of underwriters from all over the Miami Valley help support WYSO.

As a part of Antioch College, WYSO is committed to supporting Antioch's educational mission and principles.

MISSION/VISION

WYSO serves our community with news, information, and entertainment to encourage dialogue, understanding, and engagement. Our vision is to be recognized as a media leader by enriching public discourse, fostering intellectual and cultural curiosity, and serving as a dynamic, creative, local companion.

We achieve our goals by focusing on a vision of core values that are intrinsic to our success in creating a community of engaged and curious listeners. These core values are as follows:

- Community
- Innovation
- Excellence
- Education
- Integrity

LETTER FROM THE GENERAL MANAGER

Dear listeners,

The question we ask ourselves every day at WYSO is this: what do our listeners want? What do they need from us? What can we provide for them that no one else can?

The answer is unique and excellent programs that satisfy curiosity and allow for growth, change and understanding in a world that seems to grow more incomprehensible every year.

We bring you programs from NPR like *Morning Edition* and *All Things Considered* and from other networks like PRI, American Public Radio and the BBC.

You rely on the national and international programming to keep you an informed citizen. The news isn't always good news, but it's accurate and thorough and it goes beyond headlines.

And of course, we make programs ourselves - both music and news. And those programs connect you with people and communities in southwest Ohio.

On WYSO you've heard *Dayton Youth Radio*, where high school students discover their voices and tell us what's on their minds. On *Veterans Voices*, local vets talk to each other about their service and their transition to civilian life. On *Rediscovered Radio*, we revisit our shared history as it has been recorded in the WYSO Digital Audio Archives.

Our music programs feature local hosts with deep knowledge and a heartfelt approach to choosing music. No assigned playlists on WYSO! Local musicians have a home here, too, performing their music for the world from our studios.

You hear local people, local ideas and local values on WYSO. You learn more about your neighbors and yourself. We strive to connect you to people, not to divide, to foster understanding, not hatred.

In 1958 some students at Antioch College dreamed of creating a radio station that would give voice to local people. That dream is alive, thanks to you.

Sincerely,

Neenah Ellis
WYSO General Manager

General Manager, Neenah Ellis

HIGHLIGHTS OF 2015

VETERANS' VOICES

Veterans' Voices is a collaboration between WYSO and Wright State University's Veteran and Military Center (VMC). The project was originally part of "Veterans Coming Home", a national public media initiative funded by the Corporation for Public Broadcasting, and now receives funding from Ohio Humanities.

The series features stories of Miami Valley veterans who served in a variety of conflicts and branches of service and focuses on the veterans' stories of re-entry into civilian life. The stories are reported by student veterans attending Wright State University trained in WYSO's Community Voices model. This unique veteran-to-veteran storytelling project is designed to let Miami Valley veterans describe their own experiences, in their own voices.

DAYTON YOUTH RADIO

An off-shoot of the station's groundbreaking Community Voices training project, WYSO's Youth Radio training program brings journalism and broadcasting skills like those used in WYSO's daily operations to area high school students, teaching everything from interviewing techniques to digital audio editing.

WYSO began the youth-focused program in September 2014, partnering with Dayton's Ponitz Career Technology Center. WYSO Community Voices producer and *Behind the Groove* host Basim Blunt taught sixteen students in the school's Media Arts Radio Division how to produce feature stories for radio.

With support support from the Ohio Arts Council and the Virginia W. Kettering Foundation, WYSO expanded its Youth Radio curriculum to the Dayton Early College Academy (whose students are pictured here) and Dayton Regional STEM School in the 14-15 school year. The program returned to Ponitz Career Technology Center in the fall of 2015 and will visit other area schools in early 2016.

REDISCOVERED RADIO

WYSO's Audio Archives project began in 2009 when boxes of old magnetic tapes surfaced in a musty storeroom. With funding from the Corporation for Public Broadcasting's *American Archive Project* and partnerships with the Greene County Library and other local organizations, over 200 hours of broadcasts, most from the 1960s and 70s, were cataloged and digitized. A project to collect oral histories to complement the recordings was also begun.

With support from Ohio Humanities, the station has been airing this archival content since early 2014. The collection chronicles events at Antioch College, in Yellow Springs, around the Miami Valley and well beyond with echoes of the civil rights movement as it morphed into many subsequent movements. Audio excerpts include news reports, interviews, documentaries, concerts, lectures, music shows, and other historic tape. Archive Fellow Jocelyn Robinson (seen here) worked on our year-long project to explore this audio treasure trove and share it with listeners.

our community. our nation. our world.
