

# Likely Voter Model

---

Likely Voter = [Registered Voter + Follow news about elections + Likely to vote in November + Likely to vote in August + Party identification + college degree]

If not a registered voter, R is excluded from model

If "Follow news" very closely: 2 points

If "Follow news" somewhat closely: 1 point

If already voted in state primary: 3 points

If very likely to vote in both state primary and general election: 3 points

If very to like in general election but not in state primary: 2 points

If somewhat likely to vote in general election: 1 point

If R identifies with one of the two major parties: 1 point

If R has a college degree: 1 point

Respondents with a score of 4 or greater (n=492) are included in the Likely Voter model.

		LVscore			
		Frequency	Percent	Valid Percent	Cumulative Percent
